

LEAGUE OF LEGENDS™

AGON
BY AOC

AG275QXL

- ◇ G-sync Compatible certified tear-free gaming
- ◇ LOL-dialed picture quality enhancement
- ◇ Incredible 170Hz Refresh Rate And 1ms Response Time
- ◇ Fast IPS Technology

FEATURES

LOL-dialed picture quality enhancement

The League of Legends Edition-exclusive, integrated "LOL Mode" offers in-game enhancements that helps gamers get more out of League of Legends. This feature is a preset display mode to optimize visuals for League of Legends. Most importantly, it's co-developed with input from professional Riot Games Visual Engineers.

170^{Hz}
1^{ms}

Flawless loading times, no lag and no visual artefacts

On your grind towards the top of the ELO ranking, nothing should disrupt your gaming experience – especially not laggy graphics. Therefore, the League of Legends edition monitor is equipped with top-notch features such as a 170 Hz refresh rate and a 1ms response time. G-Sync compatibility further support the non-stop smooth performance of your visuals.

Stellar image quality brings the champions to life

League of Legends is known for its team-based and strategic gameplay. To enjoy the game while maintaining a clear overview over all lanes, the QHD resolution of 2560 x 1440 VESA DisplayHDR400 guarantees stunning image quality. The IPS panel is the perfect medium to display the game in all its glory.

Without Synchronisation

NVIDIA G-SYNC 170^{Hz} 1^{ms}

Rule the Competition with Fast IPS

Fast IPS annihilates the competition with a speed 4x faster than conventional IPS. Guaranteeing you true 1ms (GtC) response times and captivating visual quality, raise your gaming performance to the next level!

FreeSync Premium delivers ultra-smooth tear-free gaming

Screen tearing and stuttering doesn't only harm gaming performance, it also destroys immersion. AMD FreeSync Premium addresses this by keeping your monitor's refresh rate synced with your processor's. This technology works best on 120Hz and above refresh rates on higher resolution screens, while also supporting low framerate compensation features.^[1]

Light effects sync up with in-game events for maximum immersion

Become one with the game and fully immerse yourself into the action on Summoner's Rift! This AOC monitor syncs up with the MOBA itself and lights up in response to in-game events. Team fights will become even more adrenaline-pumping. Victory never looked this good!

League of Legends in every detail

This AOC monitor features some small gadgets to highlight League of Legends in every aspect. The boot up screen and on-screen display are both designed in the style of the MOBA. An external remote lets you conveniently switch between game modes and adjust gaming features on the fly. (Download and install G-Menu^[2] to enable LOL Light FX Sync)

SPECIFICATIONS

Model Name	AG275QXL
Panel	27" (IPS)
Pixel Pitch (mm)	0.2331 (H) × 0.2331 (V)
Effective Viewing Area (mm)	596.736 (H) × 335.664 (V)
Brightness (typical)	350 cd/m ²
Contrast Ratio	1000 : 1 (Typical) 80 Million : 1 (DCR)
Response Time	1ms (GtC)
Viewing Angle	178° (H) / 178° (V) (CR > 10)
